AL ZEEPER is an amateur Physicist born in 1960 who lives in Edmonton, Canada and first began publishing his discovery of the Unification of Gravity with Electricity and Magnetism back in 2008. Since then enormous further proofs have been unveiled by Mr. Zeeper and he certainly believes that the expounding evidence with never slow.

Figure 1: Earth Energy Sphere.

For the last 10 years of his life, Albert Einstein was looking for THIS !!! And as much as you might want to oppose ... The Fact Is ... The following has been proven Mathematically !!! The mathematics will never surrender. As well, there is no such thing as a "Pulling Force" in this Universe. (send us any Force you may think is "Pulling" and we will prove to you that it is "Pushing"). As you read farther, please keep in mind, truth will never bend to man's thinking, man's understanding must "always" bend to Truth.

Gravity is a Pushing Force. Gravity is: hyperquantum particles raining into the earth as they warp space-time (not the opposite of warped space-time creating Gravity) and this quantum particle flow then "Pushes Us Down" onto the earth while also being

the fundamental foundation and "origin" of **Electricity, Magnetism**, and what man experiences as **Time**.

In as much as E=mc is Einstein's "base" equation ... the base equation for the Unification of Gravity with Electricity and Magnetism is –

"The Surface Area of Earth's Orbital Energy Sphere = The Velocity of Gravity cubed – Divided by – The Acceleration of Gravity squared x 1 Tesla."

Besides making the velocity of **Gravity** superior over the velocity of **light**, this equation also gives the EXACT irrefutable distance for the orbital Radius of planet earth.

Figure 1a: Earth Orbit Radius.

Earth orbit Radius also equals: Earth orbit Time multiplied by earth Density. And a third equation for the orbit Radius of earth equals: The speed of light multiplied by the Density of earth

divided by earth acceleration of Gravity. All of these equations prove that the orbit Radius of earth is determined by the Density of the earth.

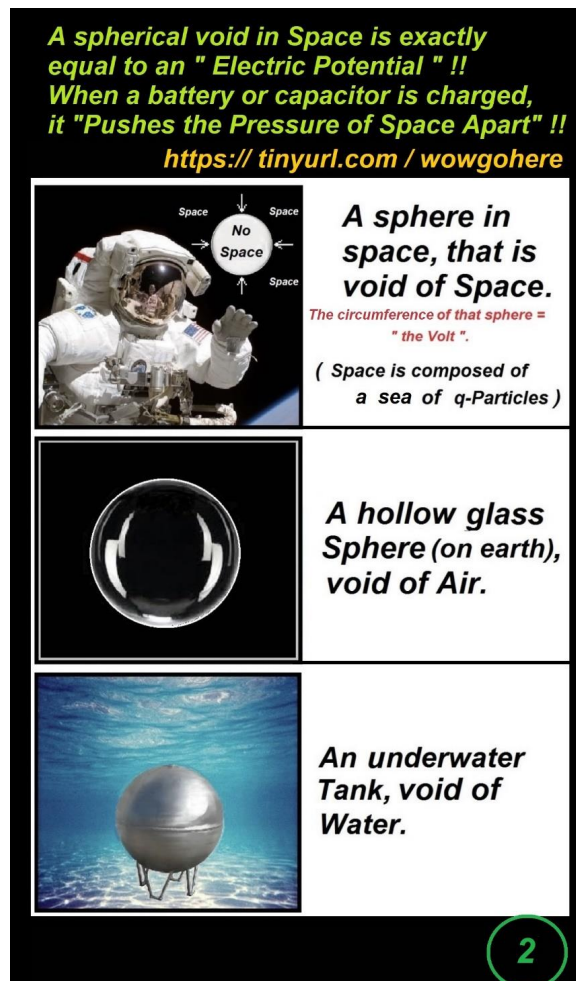

Figure 2: Three Spheres.

All of these 3 Spheres in this image possess the same ability to do work. Without the understanding that space is not empty and that any true Void in space is what creates Electric Potential, man will never fully understand Electricity. Electricity has 2 components ... The **first** is the flow of (Gravity) quantum particles that (**when Accelerated against**) push free-electrons into a standing wave upon any appropriate conductor. The **second** component is that when a battery or capacitor is charged, they in

fact push space “apart” !! Then when a circuit is made complete, that void in space contracts and once again the quantum particles of space push free-electrons into an Electric Current. This was semi proven when Veritasium showed that electricity does not move through wire but rather through fields. The “Circumference” of any spherical void in space (Electric Potential) is equal to the Electric “Volt” (a measure of Distance).

Figure 3: True Earth Values.

These True Earth Values are ALL equationally interconnected and because they are derived from "already proven" values (the acceleration of Gravity 9.8 m/s² and earth’s Magnetic Field .000032 Teslas) they CANNOT be wrong !!! The complete

list of Unification equations on WowGoHere.com absolutely proves that all orbital Values are interconnected and that if one is changed, they all change.

For ALL of these Equations to coincide with the True Earth Values would be impossible to be a Coincidence !!!

Figure 4: Speed of Light.

These 30 equations for the Speed of Light are all based on the TRUE Earth Values and they all coincide perfectly !!! For this to be just a coincidence would be absolutely impossible !!! These equations all prove true except for one fact, they actually represent the "Speed of Gravity" rather than the speed of light, because the speed of Gravity is what the Speed of Light originates from. Albert Einstein unintentionally made the speed of light King, however, the Speed of Gravity is absolutely the King of all Physics velocities !!! The speed of Light, Electricity and Magnetism ALL stem "from" the Speed of Gravity. The Speed of Gravity is the speed at which hyper-quantum particles rain into the earth "pushing us down" and also creating Electricity, Magnetism and what man understands as Time.

Today's S.I. Units are certainly ARCHAIC and embarrassing !!! These Units below are far superior and are the format that truly enables Physicists to understand.

Alternately derived SI Units

Electricity = m(AZ)²

Quantum-mass = m

Acceleration = A

Time = Z

Joule = mA²Z²

Watt = mA²Z

Coulomb = mA

Volt = AZ² *

Amp = mA/Z

Ohm = Z³/m

Tesla = 1/AZ *

Siemen = m/Z³

Henry = Z⁴/m

 1 / earth Velocity = earth Magnetic Field.

Volt = Distance = Circumference of spherical void in space = "Electric Potential".

S.I. Units from E = mc²

Figure 5: Superior Electrical S.I. Units

These Electrical S.I. Units (which are alternately derived from Einstein's E=mc²) are S.I. Units that ALL completely coincide with today's accepted electrical SI Units. These Units contain the Tesla (Magnetic Field) which equals 1/AZ = 1/Velocity. Prov-ingly 1/earth orbit Velocity (1/30,689.1802) equals the correct value for earth's Magnetic Field = .000032 Teslas. They also contain the Volt which is a measure of "distance" which equals the circumference of any spherical void in space which is the very origin of every Electric Potential on earth. These S.I. Units are certainly far superior to the current si units being used in regards to man's understanding of Unification.

The Speed of Gravity rules over the Speed of Light because ...
Light, Electricity, Magnetism and Time ...
ALL originate from "Pushing Gravity" that flows into the earth !!!

Figure 6: Speed of Gravity.

These 10 Equations for the "Speed of Gravity" give overwhelming Proof to the fact that the given True Earth Values are undeniably correct and that the Mathematics cannot be refuted. In # 6 the "only" variable is the "Circumference" of the earth. The rest of the equation (Speed of Gravity, Acceleration of Gravity, and earth's Magnetic Field) are all previously **proven** and hence demand the Circumference is True!! Further proof is the fact that

... "earth orbit Velocity² divided by Pi = the Speed of Gravity.

Hence the **AZ** of the **mA²Z²** of the Energy of earth in orbit can be reduced to the "Mass" (**m**) and Acceleration (**A**) of planet earth. The "Mass" of earth can then be further verified due to the fact that earth **Mass** = **earth orbit Radius² x Tau³**.

Magnets are created via Electricity that aligns the atomic lattice within the metal. Then ... Gravity flowing "into the earth" moving in only one direction through an atomically aligned piece of metal (Magnet) creates attraction via the Bernoulli effect and repulsion via particle flow opposition. Gravity flowing into the earth creates Magnetism Electricity and Time !!!

MAGNET →

When Electricity aligns the atomic lattice of a piece of metal, it then becomes a MAGNET via "pushing Gravity" flowing through it !!!

When a Rotor is "Accelerated" against the flow of Gravity, the particle flow then pushes free electrons on any conductor into a standing wave and thus creates what we know as an "Electric Current" !!

When any battery or capacitor is charged it "pushes Space apart", This is why physics now claims that Electricity does not flow in wires but rather through the fields, because the energy is actually the "Contraction of Space Pressure" !!!

MAGNETISM

The flow of quantum mass particles (q-Particles) down onto the earth (Gravity) and then through the "atomically altered lattice" (Magnet) of a metal bar.

Gravity ... "which creates Magnetism" ... is created by the exact same flow of quantum mass particles (q-Particles) down onto the earth, that is right now "Pushing" you down onto the earth.

1. Gravity is hyperquantum particles flowing into the earth pushing us down !!
2. Magnets are electrically aligned metal with Gravity flowing through them !!
3. Electricity is Gravity pushing free electrons into a wave on any metal conductor !!
4. Time is ... "pushing Gravity" that is the force behind earth rotating and also the force behind every type of clock found on earth !!

Figure 7: Magnetism.

Magnetism is created by Gravity (hyperquantum particles flowing into the earth). After the atomic lattice of certain metals is rearranged via electricity to enable Gravity to flow in only one direction through that metal, the resulting "flow" of particles then creates Magnetic attraction via the Bernoulli effect as well as Magnetic repulsion via opposing particle flow. This also coincides with the way in which "directed" Gravitational flow (through Magnets) enables a turning rotor to accelerate against

"concentrated" Gravitational Flow to push free-electrons upon a wire into an Electric current. Magnetic Gravitational Flow completely coincides with the 3 forces that magnetic poles experience; North to North (Magnetic Repulsion due to flow opposition.) South to South (Magnetic Repulsion due to flow interference.) and North to South (Magnetic Attraction due to the Bernoulli flow effect.) This unification of Gravity and Magnetism is why the Speed of Gravity = the Speed of Magnetism !!!

FINALLY DISCOVERED !!!

The origin of the "Fine Structure Constant" is the Pressure of space and the Velocity of Gravity that is flowing into the earth.

Fine Structure Constant ² =

$$\text{Fine Structure Constant}^2 = \frac{\text{Pressure of Space} \times \text{Acc. of Gravity}}{\text{Speed of Light} \times \text{earth Velocity} \times \text{Density} \times 3 \text{ Tau}}$$

Fine Structure Constant ² = $\frac{4600192388721.4535652897 \times 9.8054425006198}{299,792,458 \times 30,689.1802376259 \times 4884.3347342404 \times 18.849555921538759}$

Figure 8: Fine Structure Constant.

Finally the discovery of the exact "origin" of the Fine Structure Constant !!

The core equation for the Fine Structure Constant is; The Pressure of Space x the acceleration of Gravity ... divided by ... the Speed of Light (correctly Speed of **Gravity**) x earth orbit Velocity x earth Density x 3Tau. The origin of the Fine Structure Constant is a product of the "Pressure" of space and the fact that all mass possesses "inflowing" quantum Gravity which is directly connected to orbital Acceleration which is also relative to the atomic level. Hence the TRUE Earth Values are once again prov-

en correct as this image uses those same interconnected earth Values to determine the Fine Structure Constant which can then be factored down to its core origin which = the square root of (the Acceleration of Gravity x Pi - divided by - earth orbit Velocity x 3Tau) = $\sqrt{(9.8 \times \text{Pi} / 30,689.1802376259 / 3\text{Tau})}$ which also = $\sqrt{(\text{earth orbital Acceleration} / 3\text{Tau})} = \sqrt{(.001003207246557 / 3\text{Tau})}$.

The Fine Structure Constant is fundamental to atomic structure due to space **Pressure** and Pushing **Gravity**.

TIME is GRAVITY

SUNDIAL CLOCK — Particles originating from sun combustion, pushing and driving planets to orbit and rotate against the backdrop of space Pressure. Those hyperquantum particles also raining into the earth causing, "Pushing Gravity" which is the origin of . . .

HOURGLASS CLOCK — Sand being pushed down.

WATER CLOCK — Water being pushed down.

PENDULUM CLOCK — Mass being pushed down while transformed into pendulum motion.

MECHANICAL CLOCK — Mechanical springs are simply quantum Magnetic tension. Pushing Gravity creates Magnetism via quantum particle flow and the Bernoulli effect.

QUARTZ CLOCK — The Piezoelectric effect is Pressure upon a quartz crystal and Gravity is the origin of Pressure.

ELECTRIC CLOCK — Pushing Gravity creates Electricity as it pushes free electrons into a wave upon any metallic conductor.

ATOMIC CLOCK — The vibrations of a cesium atom. Pushing Gravity at the quantum level "is" the Strong Force, holding atoms together.

Figure 9: Gravity "creates" Time.

This one is so SIMPLE and PROFOUND ... The flow of hyperquantum particles into the earth (Pushing Gravity) is not only connected to earth orbit and rotation, it is the force that **drives** "every type" of clock on the earth !!! The one fact that makes this difficult for people to understand is that they have difficulty visualizing the fact that "Space Pressure" (quantum particles

flowing into the earth) down at the quantum level is holding atoms together. Hence "any type of spring" is simply atomic orbits "being stretched" against the Pressure of space.

The "Flow of Gravity" into the earth is absolutely the "origin" of what man perceives as **Time !!!**

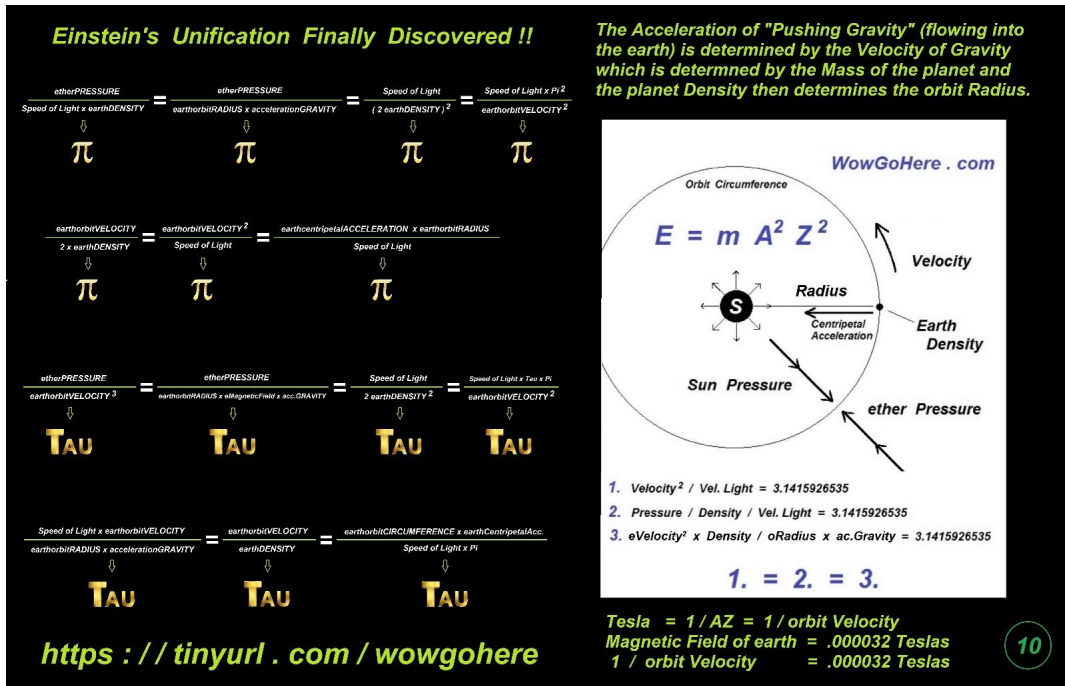

Figure 10: Tau Pi.

For ALL of these equations to = Pi or Tau and then to simply be nothing more than a Coincidence would be ... next to an "impossibility".

Figure 11: Moon Image Compressed by Pushing Gravity.

Why does the image of the Moon in a flat mirror placed on the ground, look smaller than the “approx. 6 foot difference” in Distance, than when the Moon is viewed directly in the sky ?? Because the “image of the Moon” is being compressed by Pushing Gravity. From the time that the light leaves the Moon and moves toward the earth (approx. 1.2 seconds), the image is being compressed in proportion to the Speed of Pushing Gravity that is compressing it. Therefore when the reflected image diameter is multiplied by the velocity of Gravity, it then equals the true physical length of diameter.

1.159 cm (image diameter) x 299,792,458 = 3474.8 kilometers (true physical diameter) Because Light travels through the same medium as Gravity it then undergoes the same physical characteristics as Gravity, which in this instance is “Compression” over Distance travelled toward earth.

**Fibonacci and the Golden Ratio
have now been "connected" to Gravity !!**

Earth orbit Velocity squared divided by the Speed of Light = Pi.

30,689.1802² / 299,792,458 = 3.14159265

also ... Earth orbit Velocity divided by the Acceleration of Gravity = 3131.549

30,689.1802 / 9.8 = 3131.549

then 3131.549 divided by the Golden Ratio (1.618) = 278,707.8613

3131.549 / 1.618 = 278,707.8613

278,707.8613 divided by earth orbit Velocity equals 9.08163266

278,707.8613 / 30,689.1802 = 9.08163266

9.08163266 = 1 / Fibonacci x Acceleration of Gravity.

9.08163266 = 1 / .011235955 x 9.8

Because the above chain of equations contains both the “Golden Ratio” and “Fibonacci’s Sequence” This is absolute PROOF that Fibonacci is connected to Gravity !!! Pushing Gravity via earth’s spiral orbit.

Figure 13: Fibonacci and Golden Ratio Connected to Gravity.

Earth orbit Velocity squared divided by Speed of Light equals Pi. 30,689.1802² / 299,792,458 / 3.14159265 also... Earth orbit Velocity divided by Acceleration of Gravity equals 3131.549

30,689.1802 / 9.8 = 3131.549
3131.549 divided by the Golden Ratio (1.618) equals 278,707.8613
3131.549 / 1.618 = 278,707.8613
278,707.8613 divided by earth orbit Velocity equals 9.08163266
278,707.8613 / 30,689.1802 = 9.08163266
9.08163266 = 1 / Fibonacci x Acceleration of Gravity.

**Avogadro's "exact" Number
Finally Discovered !!**

14

Finally after hundreds of years we now know the EXACT number of atoms in 12 grams of Carbon.

Avogadro's Number =

The Mass of the earth divided by (earth Density x Gravity³ x 2) (calculated in grams) ... which is equal to;

The Volume of the earth divided by (Gravity³ x 2) (calculated in grams) ... which is equal to;
