Abstract

According to the intelligence analysis of the United States, Russia is bound to invade Ukraine on February 24. However, the United States deliberately said that "Russia will invade Ukraine on February 16", which has several reasons, including cheating Putin.

The real reason is that the United States, Europe and Ukraine have already arranged and prepared, pretending to speculate about the military action of the Russian army.

The United States and Europe openly pretended not to send troops, and Ukrainian diplomats pretended to cry and complain that "no one came to help, so they could only fight against the Russian army in isolation

In this way, the courage of the Russian army was strengthened, the weakness of the Ukrainian international performance was introduced into the depth of the Russian army, and finally surrounded by the Ukrainian army and mercenaries to counterattack the total annihilation.

Finally, the international plan to reach the United States was realized.

Introduction

When the world thought Biden was ridiculed by Putin, the Russian army invaded Ukraine on February 24. I knew the direction and result of the whole war: the Russian army was defeated I have written this paper on February 26, 2022, which is the basis of the paper[1]-[6].Published on zhihu.com on February 28, 2022: <https://www.zhihu.com/question/518477610/answer/2367262410>

Tip This paper was not written according to the evolution of the Russian Ukrainian war, but the conclusion of the whole process was written on the second day of the war.

Facts And Logic

We can't look at appearance and habits. We can only use hidden facts:

1. The United States has long known of the Russian invasion and must tell its allies and the president of Ukraine. Therefore, the United States, Europe and Ukraine are fully prepared.
2. The president of the United States deliberately announced the time in advance and announced it to the world. In fact,

he was lying to Putin: Putin thought, "look, old Biden is guessing again and deliberately frightening me.". So Putin was fooled. The world also believed that Biden was teased by Putin face to face.

3. Putin was reassured that the United States and Europe would not openly participate in the war. In order to give full play to its role, Ukrainian diplomats complained that "you western countries do not help us" and expressed this meaning at the United Nations. Purpose: (a) appease Putin; (b) The Russian army was defeated by the Ukrainian army, which has nothing to do with the United States and Europe. Russia does not dare to use nuclear weapons, nor does it dare to use nuclear weapons against the United States and Europe.
4. In order to treat the fake play as a real play, we can seduce the Russian army to go deep. The Russian army can't leave after being trapped for a long time.
5. With these five points, the United States and Europe dare to use "mercenaries" to participate in the war and find that they are also voluntary mercenaries, which has nothing to do with the United States and Europe.
6. It also avoided nuclear war.

7. Boiled frog in warm water: Russia cannot be surrounded and destroyed in a short time, which prevents Russia's military nuclear bomb. This will only make the Russian army feel that the Ukrainian army is doing its best to resist. The Ukrainian army can destroy some Russian troops, and the Russian army can also occupy some areas, so that the Russian army has the desire to win and is ready for the final and complete elimination of the Russian army.

{(2), (3), (4),(5),(6) (7)} [1-6].

Mathematical Induction

{(1)} → {preparation; operation plan}

{(2), (3), (4), (7)} → {show weakness; temptation; avoid nuclear war; have nothing to do with European and American countries}

{(5), (6), (7)} → {encircle; counterattack}

∴ The Russian army will be defeated.

Conclusion

The president of Ukraine was born as an actor, and the United States and Europe were directors.

The Russian army will be defeated. The defeat is very tragic. Putin is finished.

Ukraine won.

Biden's International Plan For The United States

Through this Russian Ukrainian war, the United States has made a package solution:

i. The border location and relationship between Russia and Europe;

ii. Only allow the peaceful reunification of Taiwan and deny all force;

iii. Free passage and security in the South China Sea.
